CharacterBank™ Inc.

AI + Machine Learning

About Us

At **CharacterBank™**, we recognize that the pursuit of the ideal employee extends beyond mere task completion – it's a strategic necessity. In a world where **61%** of top executives grapple with this profound challenge, our core mission is to revolutionize the way organizations approach talent acquisition. Our goal is to ensure that every team addition becomes a lasting asset, propelling businesses towards enduring success.

The hard truth is that a substantial **20-25%** of candidates often fall short of fulfilling their roles, causing significant disruptions and setbacks for companies. Fueled by this insight, we embarked on a journey to craft a solution that transforms the hiring paradigm.

Our groundbreaking approach hinges on the utilization of **CharacterCode™, a licensed character profiling tool** at the heart of our innovation. Unlike conventional methods that focus on behavior or personality, our methodology goes deeper, unveiling the intrinsic character of individuals. We firmly believe that character remains steadfast amidst the shifting sands of personality and behavior, serving as a more reliable indicator of a person's potential for success.

By harnessing the unparalleled potential of **CharacterCode™**, we arm HR Managers with a distinct advantage. This tool empowers them to pinpoint candidates whose inherent character seamlessly aligns with the demands of each role. The outcome is an efficient hiring process that not only saves time but also enhances the likelihood of candidates thriving in their positions.

At **CharacterBank™**, we are dedicated to not only unlocking the potential within individuals but also fostering growth and development within organizations.

Mission

Embracing the power of character allows us to live a life of lasting achievement and fulfillment.

By understanding our strengths, weaknesses, and innate abilities, we can leverage our character to achieve success in all areas of life.

Whether it is wealth, health, relationships, or personal growth, character forms the foundation for a meaningful and purposeful life.

By continuously developing and strengthening our character, we unlock our true potential and create a positive impact on the world around us.

Character Profiling

Character is the essence of who we are as individuals. Character refers to the unique combination of our values, beliefs, and actions. It encompasses our strengths, weaknesses, and innate abilities. Understanding our character allows us to leverage our strengths, work on our weaknesses, and make the most of our innate abilities.

Using **Artificial Intelligence + Machine Learning**

Over **13 Years** of Research & Analysis

Big Data Analytics – over 50,000 Individuals' Data
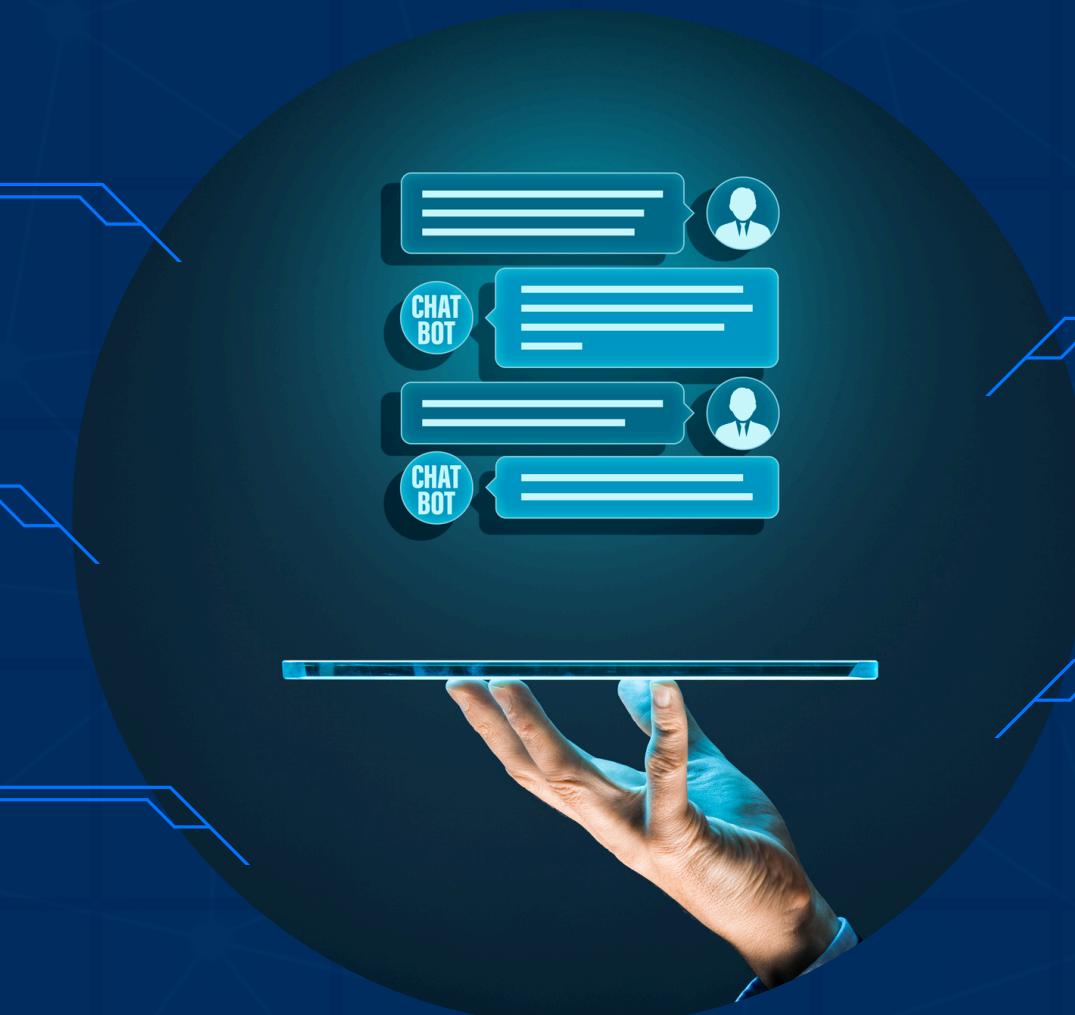

Over **80% accuracy** of finding right-fit employees

Reveals **unique features** of employees

CharacterCode ™

Based on our research using big-data analytic by means of artificial intelligence and machine learning algorithm, we were able to synthesize the character traits of thousands of individuals' data since 2008, into the following nine archetypes, differentiating their unique innate abilities that contribute to their character, which we call CharacterCode™ as follows :

Researcher/Analyst

Diplomat/ Relations Officer

Influencer/ Marketing Manager

Administrator/ Accountant

Commander/ President

Culture Officer/ HR Manager

Strategist/CEO

Operations Officer/COO

Investor/ Entrepreneur

COMPETITOR

testcandidates

TestGorilla

Evaluate candidates based on various skills, they may not capture the full context of a candidate's abilities or potential fit

Most personality tests measure the "Big Five" personality traits

- extraversion
- agreeableness
- conscientiousness
- emotional stability
- openness to experience

Target Audience

Approximately 97% of employees believe that lack of alignment within a team impacts the outcome of a task or project. Good organizational alignment leads to optimum performance, belonging and personal satisfaction, which are essential factors in creating a work environment where employees want to stay and excel.

HR Managers

- Select the right fit for a position with greater accuracy, thereby saving recruitment and turnover costs.
- HR automation software automates the hiring process, streamlines it and makes it more efficient.
- Online recruiters can quickly evaluate candidates because the application tracking system keeps all of the necessary candidate data in one location.
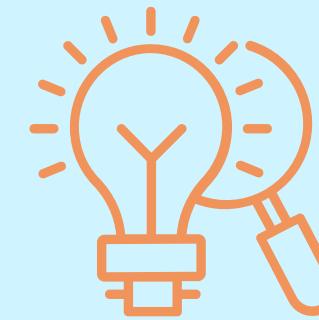

Investment Analysts

- CEOs make substantial decisions around strategy, resource allocation, M&A, and hiring and firing top talent, so making those decisions in the best way possible will have an outsize impact on the performance of the company.
- Investment Analysts having knowledge of the Characer Code of the CEOs will help them in making their investment decision better.

Investors

- Investors who know the Character Codes of the CEOs of listed companies will have the added advantage of knowing which particular company, with the CEO having that Character Code, will be a sure winner.

Client Testimonial

ROGER PEREIRA

Self-employed / Business success

★★★★★

I have run an F&B business for about two years now and recently had some issues with my business partners. But I could never figure out why I could work well with some people and not with others. Attending Dr Bernard's course has given me a lot of clarity on working with people, given my character. Now I feel much more confident about going into another business partnership.

NICOE

Self-employed / Business success

★★★★★

I used to own a small business. But it failed. The ups and downs in my life made me realize that numbers are very important in our life. In 2015, I attended a seminar where Dr. Bernard Yeo was one of the speakers, and it was there I knew him. I subsequently joined his course and found it useful in my life. After attending his course, I know myself better. Knowing my numbers helps me know what type of person I am and what kind of career that suits me.

INVESTMENT OPPORTUNITIES

CharacterBank™ presents a compelling investment opportunity, aimed at securing $65 million in funding over a 5-year span. Our roadmap is meticulously planned, starting with seed investment, moving through various series investments, and culminating in a Nasdaq IPO. What sets us apart is the incremental growth strategy, with a projected $1 increase in share price at each developmental phase, leading to an IPO share offering at $6.

CharacterBank™ provides not just a timely solution to an age-old problem but an opportunity to invest in a game-changing technology set to revolutionize the talent acquisition landscape. The financial, strategic, and operational elements of our business model are designed for both short-term gains and long-term sustainability, making this a unique and compelling investment opportunity.

Reason for Investment	Why Invest in CharacterBank™ ?
Solving a Universal Problem	Addresses a challenge faced by 61% of top executives in the multi-billion-dollar talent acquisition market.
Proven Technology	CharacterCode™ offers an evidence-based, ground-breaking approach for evaluating long-term employee fit.
Scalable Business Model	The tool can be adapted across sectors and business sizes, with revenue diversification opportunities.
ROI and Cost Savings	By reducing turnover costs, CharacterBank promises a strong ROI, aiding customer acquisition and retention.
Financial Trajectory	Clear roadmap to secure $65 million over 5 years, with gradual $1 share price increments leading to a $6/share Nasdaq IPO.
High Growth Potential	Demand for CharacterBank's unique services is expected to rise sharply, offering exponential ROI.
Nasdaq IPO	The end-goal of a Nasdaq listing offers a clear exit strategy and a projected $6/share provides significant upside.
Visionary Team	Led by industry experts and thought leaders, ensuring the company is well-guided for success.
